Summary of Qualifications

- 2+ years experience in Full-Stack Web Developer.
- Started off as a Front-End Web Developer but quickly moved into a Full-Stack role.
- 3+ years of experience in Computer Graphics Design.

Technical Skills

Proficient

- React | Redux | Immutable.js | Mocha | Chai | webpack | Sass | jQuery | Clojure | Java | Node.js | Express | AJAX | Microsoft SQL Server | Javascript | HTML5 | CSS3 | Jasmine | AXIOS | lodash | underscore | gulp | grunt | npm | Backbone | Handlebars | Eclipse | IntelliJ | Emacs | Atom | Sublime Text Editor | Mac OS X | Chrome Devtools | Github | git | Pivotal Tracker

Exposed To

- Spring | Angular | ClojureScript

Professional Experience

CSAA AAA Insurance | Phoenix | Arizona
Web Developer | Oct 2015 – Current

- Develop new services with Clojure, Java, Spring, Microsoft SQL Server, Junit, Mockito, Node.js, React, Redux, Mocha, Chai, Jenkins, and more. Here is the product's URL https://mypolicy.digital.csaa-insurance.aaa.com/mypolicy/login
- Develop new services with Clojure, Java, Spring, Junit, Mockito, and React. Developed the entire back end from scratch that would handle API calls to get the users' data, check the data, update the data, make calls to different services based on different environment, and render a card based on the response. Here is a link to the error page https://mypolicy.dev.digital.pncie.com/mypolicy/paperless-preferences?. I can demo the other scenarios in person but legally cannot give out user data.
- Help lead the way with new technologies to CSAA including Clojure, Node.js, React, Redux, etc.
- Test using Mockito, Junit, Mocha and Chai, Jasmine, and more.
- Use maven, grunt, or webpack depending on the job.
- Maintain existing code base and bring test coverage up to acceptable standards.

Personal Projects

https://github.com/richi1717/ellies-quest-rebirth
- Create a turn based RPG similar to Final Fantasy
- Push React, Redux, and Immutable.js beyond what it was created to do.
- Created so I could practice writing better code that doesn't get mutated, is cleaner, easier to read, easier to understand, and have fun with it.
- The tools used are React, Redux, webpack, babel, ES2015, ES2016, SASS, Lodash, ESlint, and more.

https://github.com/richi1717/finances
- Another React Project that I created to help myself and others budget properly.
- Used firebase.io as my database and utilize CRUD through my AXIOS calls (promise based AJAX).
- Used cloudfoundry to host and test it.
- The tools used are React, Redux, webpack, babel, ES2015, SASS, Lodash, ESlint, and more.

Military

United States Marine Corps NAS Pensacola | Florida

- Aviation Electronics Technician
- Diagnosed jet circuit boards | repaired circuit boards | basic military training routines | physical fitness.

- Scored a 92 on my ASVAB | top of class in 3 separate classes | hardest and most intellectual training classes in the military

Education

Rockit Bootcamp | Tempe | Arizona

Certificate in Web Design in Programming | June 2015 – Present

- Graduated first in my class
- Final Project using HTML | CSS | Javascript | jQuery | JSON | Photoshop | Handlebars | gulp | lodash
- Backbone Project using Backbone | CSS | HTML | jQuery | Trello | Scrum (Agile Method)
- Puppy Love Project using CSS and HTML

The University of Advancing Computer Technology | Tempe | Arizona

4.0gpa maintained

- Video game design | computer graphics design | Photoshop | Illustrator | Wireframe programming | Game documents.
